

S Performance

Nová generace multiotvorových kotoučů.

Nová generace multiotvorových kotoučů – Optimální systém děrování pro maximální efektivitu

Silný a výkonný – šetří čas a peníze

Velký úběr materiálu a rychlejší práce

Úběru je dosaženo díky odvodu prachu přímo ze zdroje.

Dlouhá životnost

Thanks to fewer sanding disc blockages, the lifetime can be extended. The abrasive needs to be changed less frequently, which means that there are hardly any work interruptions.

Jednoduchý a praktický – usnadňuje práci

Snadné umístění brusného kotouče

The sanding disc can be easily positioned and can be quickly attached to the backing pad.

Convenient mounting

Thanks to the centre hole, the sanding disc can be mounted conveniently and without any issues.

Čistý a bezpečný – zlepšuje bezprašný proces broušení

Lepší ochrana zdraví a bezpečnost při práci

Practically dust-free work significantly improves the working conditions. Reduced exposure to sanding dust is good for employees' health.

Reduced residual dust facilitates and accelerates machine and workpiece cleaning.

Sanding dust extraction

■ Outside area

■ Core zone

Core zone

More holes in the centre for maximum sanding dust extraction.

Outside area

Fewer holes outside the core zone for optimum air flow into the centre.

Centre hole

For convenient, simple mounting.

Slotted holes

Extraction is optimised thanks to the larger extraction surface of the slotted holes.

- ▶ **Strong and efficient – saves time and money**
 - High stock removal for fast work
 - Long lifetime reduces work interruptions

- ▶ **Simple and practical – makes your work easier**
 - Simple positioning of the sanding disc
 - Practical mounting thanks to the centre hole

- ▶ **Clean and safe – enhances the dust-free process**
 - Better occupational health and safety
 - No dirty machines or workpieces
